

As the chair of the Sponsorship Committee of the ITPA National Capital Chapter I'd like to invite you to take a sponsorship for our event season and/or individual event.

Note that the ITPA is a 501 (c) (10), and our work is to benefit the community and provide donations to our selected charities, which currently are the Juvenile Diabetes Research Foundation (JDRF), the USO, and the Capital Area Food Bank.

As you likely know, the ITPA NCC ([www.itpancc.org](http://www.itpancc.org)) acts to foster telecommunications-oriented government-industry collaboration through our approximately eight to nine monthly luncheon events, annual business dinner and annual golf tournament. The luncheon events typically involve one or more government speakers and occasional industry panels.

The monthly events are normally monthly from October through June, and attendance typically ranges from 60 to 100 people, and include representatives from telecommunications companies, large and small; plus government IT executives.

Our sponsorships come in two forms, Annual Table/Seat sponsorship, and individual event sponsorship. Note that the individual event sponsorship applies to our annual Business Dinner as well. Below are tables that show the value and cost of each:
